2. What are your District’s long-term plans for school facilities? What is the existing capacity and enrollment for each school? Which school facilities do you anticipate would accommodate the students generated from within the planned growth areas? Does the District have vacant or leased schools that could accommodate future growth? For example:

Existing Schools

School/Location/ Grade Levels	Capacity	Existing Enrollment	Any Planned Expansion?	Any Planned Closing? (Year)	Would Serve Growth Area Identified on San Jose 2040 GP Maps

Vacant/Leased School Sites

School Site	Location	Built for Grade Levels	Potential Student Capacity	Any Constraints to Reopening

Please also provide any long-term enrollment projection studies prepared for your District.

3. Are any new schools planned in the District? Please list the approximate location or sites for new planned schools, grade levels, projected capacity and other information to help structure the EIR for the first tier of environmental review for the school siting process.

New or Planned Schools

Approximate Location or Site	Grade Levels	Projected Student Capacity	Projected Opening School Year (if known)	Other Information

4. Based upon your District’s long-term plans, can the local schools and/or district accommodate the project-generated students, and if not, what would need to be done to accommodate those students?
